## **Economic Development Project Approved in West Chester**

Resilience US, Inc., located in West Chester Township, was recently awarded tax credit funding that will result in local economic development and job creation. Resilience is a biomanufacturing company specializing in the production of novel medicine.

The Ohio Tax Credit Authority (TCA) approved a 1.9%, 10-year Job Creation Tax Credit for this renovation project. The funding is expected to result in the creation of 274 full-time positions, ultimately generating \$18.7 million in new annual payroll and retaining \$27.2 million in existing payroll.

"I am very pleased to continue to see intentional investments into Butler County," said Gross.

**Visit with the HealthCare Connection**

Representative Gross was thankful for the opportunity to visit the HealthCare Connection. The HealthCare Connection aims to provide quality and accessible primary healthcare services to northern Hamilton County and other nearby communities. Representative Gross enjoyed learning about the services the Healthcare Connection provides to those residing in Hamilton and Butler Counties and their efforts to provide healthcare to those that are underserved, underinsured, and uninsured.

## **Rep Report**

As always, it is my pleasure to serve you in District 45. Though valuations have hit us hard, I want you to know I continue to fight for your constitutional liberties and freedom. I support upcoming legislation to abolish the income tax which would give some relief for increasing property taxes. SB 216, sponsored by Senator Lang and Senator Huffman, would phase out the income tax, protecting your hard-earned dollars. Additionally, I have co-sponsored legislation for the Homestead Exemption Increase, but more can be done by the legislature to relieve the heavy burden.

Our current inflation rates are challenging for every Ohioan and each vote I cast is with you in mind. Thank you to all who reached out to me with your concerns. It's my honor to serve you.
